Introduction

- Lazy cows find it hectic to open multiple applications and browser tabs to get started with their work session
- An easy to use shortcut creation tool can be the solution
- Introducing **LazyCow**, a lightweight, easy-to-use desktop application to ensure the least amount of clicks to get started with your deep working session.

Motivation

1. Creating an user-friendly shortcut-creation tool
2. Speeding up initial setup of a productive work session
3. Sharing useful shortcuts among the community
to micro-boost productivity
4. Getting rid of repetitively opening applications everyday

Key Features

Shortcut Creation

creating shortcuts
with selecting apps
and browsers

Triggers

activating shortcuts with
programmed hotkeys

Community Feedback

user can share useful
shortcuts

Side & Potential Features

account
creation
